

ABOUT US

Built on expertise. Driven by trust. Delivered with pride.

Bada Edifica is a full-service construction and building solutions company based in Barcelona, Spain, founded in 2023 with a clear mission: to deliver every trade under one roof, with quality and honesty at the centre of everything we do. Though we are a young company, our team brings years of hands-on experience across electrical, plumbing, construction, renovation, site management, and fire safety — giving our clients the reliability of seasoned professionals with the energy and drive of a company still building its legacy.

We launched Bada Edifica because we believed the industry needed something different — a single, accountable team that handles everything from the first brick to the final clean, without the confusion of managing multiple contractors. In just a short time, we have completed a growing number of successful projects and earned the trust of residential and commercial clients across Catalonia.

OUR STORY

Young company. Experienced team. Big ambitions.

Bada Edifica was born in 2023 from a shared frustration among construction professionals — clients were constantly let down by fragmented services, poor communication, and inconsistent standards across different contractors. We set out to fix that by creating a company where every discipline works together as one coordinated team, from day one to handover.

Starting with residential and small commercial projects in the Barcelona area, we quickly built a reputation for doing what we say and delivering to the standard our clients expect. What makes us different is not just the breadth of services we offer — it is the culture we have built: a team of people who take pride in their craft and treat every project as if it were their own.

2023**Bada Edifica founded**

Launched in Barcelona with a core team of experienced tradespeople across electrical, plumbing, and construction — with a clear vision for a better way to build.

2023**First projects delivered**

Completed our first wave of residential renovation and electrical installation projects, earning early client referrals and five-star feedback.

2024

Fire installation certification
Expanded our offering with full fire detection and suppression installation capability — certified to design and deliver compliant life-safety systems.

2024

Commercial projects launched
Secured our first commercial construction and renovation contracts, extending our reach beyond residential to offices, retail, and mixed-use developments.

2025

Growing across Catalonia
With a growing portfolio, a certified team, and a reputation built on trust, Bada Edifica continues to take on more ambitious projects across the region.

WHAT WE DO

Six disciplines. One team. Zero confusion.

From the first foundations to the final fire inspection — we handle everything, so you don't have to coordinate anyone else.

Electrical Installations	Plumbing Installations	Supply, drainage
Construction	Renovations	Remodels, refurb
Site Cleanliness	Fire Installation	Detection, alarm

OUR VALUES

The principles we build everything on

Quality without compromise

We do not cut corners. Every material, method, and finish is chosen to meet the highest standard — because that is what our clients deserve.

Reliability

We show up, we deliver on time, and we stand behind our work. Our reputation is built on doing what we say — consistently, every project.

Safety first

Every project we manage — from a small renovation to a full new build — is run with the safety of workers, occupants, and the public as the top priority.

Transparency

Clear timelines, honest pricing, and open communication throughout every project. No surprises — just straightforward progress at every stage.

Local expertise

Rooted in Barcelona and Catalonia, we understand local regulations, building codes, and the environments our clients live and work in.

Continuous growth

We are a young company on an upward journey — investing in our team, our certifications, and our capabilities with every project we complete.

Why we started — and where we are going

Our mission is to deliver construction and building services that people can genuinely rely on — completed on time, within budget, and to a standard that lasts. We believe that quality workmanship and honest relationships are not optional extras; they are the foundation of every project we take on.

Our vision is to become the most trusted building services partner in Catalonia — the first name that homeowners, developers, and businesses think of when they need work done right. We are building that reputation one project at a time, with every nail, every cable, and every clean site we hand back.

*23 because we knew there was a better way to build — one
excuses. That is still the standard we hold ourselves to every*

— Founding Team, Bada Edifica
